

Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Tuesday 16 Nov 2021

++ Valid for broadcast between 0600 and 1800

Headline:

After a dry morning cloud and rain this afternoon.

Today:

A largely dry morning with some sunny spells, but becoming increasingly windy. Cloud and outbreaks of rain are expected to spread in from the northwest during the late afternoon. Maximum temperature 11 deg C (52 deg F).

Tonight:

Evening cloud and rain clearing southeastwards. Clear spells developing, allowing a grass frost in places, before more cloud comes in after midnight with further showers, mostly likely over higher ground. Minimum temperature 1 deg C (34 deg F).

Wednesday:

Variable amounts of cloud on Wednesday with the best of any dry bright spells further east. Cloudy over the hills with further mainly light rain. Much colder than of late. Maximum temperature 5 deg C (41 deg F).

Outlook for Thursday to Saturday:

Mostly cloudy, mild with strong winds Thursday and Friday, outbreaks of rain and drizzle, especially across western hills. Heavy rain for a time on Saturday, before turning much colder.
